# "I'm Retired U.S. Air Force And I Know Professionalism When I See It!"

I had missing teeth in the back areas of my mouth, and I knew that something needed to be done about it as it would most likely present a more significant problem in the future. As someone who has spent a great deal of time in a dentist chair over the years, (braces, over bites, smoking, caffeine), I've come to know who's good at their profession. I'm also retired from the U.S. Air Force, and I recognize professionalism and a subject knowledge expert when I see one. Dr. Schwartz is a true professional and expert in his field! After meeting Dr. Schwartz, I had complete confidence in him, and my experience as his patient was unbelievably pleasant. I was actually able to relax and think pleasant golf thoughts while in the dental chair! After treatment (implants, crown & implant supported bridge), my results are fantastic! It has made such a difference in how I'm able to eat now, without relying on my front teeth so much. I have recommended Dr. Schwartz to my Mom. She gets very nervous about visits to the dentist and I knew it would make a huge difference to her knowing she was in the hands of such a professional. I also knew she would appreciate the calm, comforting effect that he and his staff have on their patients. They all walk the talk!
