

John F. Kennedy said, "One person can make a difference and every person should try."

Through Lifevantage Legacy, we've helped those without shoes, the homeless, orphans, those in need of water or food and many others. In fact, at Elite Academy Orlando, the generous distributors of Lifevantage and Lifevantage Corporation itself donated funds that will contribute to improving the health, education and quality of life for more than 37 million children through the Deworm the World's school-based parasitic worm initiative in Bihar, India.

We at Family, Implant & Cosmetic Dentistry are proud to be distributors of Protandim for the Lifevantage Corporation. It's the power of one: one person, one organization, one company, to make a difference in the world for good. That's what Lifevantage is all about: changing lives and improving quality of life through their products, business opportunity and philanthropy throughout the world.

For more information about being a Protandim preferred customer or distributor, please visit our Lifevantage website: <http://www.mylifevantage.com/drschwartz>. Or feel free to call with any questions you may have regarding Protandim and Lifevantage: (813)684-7888.

Thank you for your support!
