

## “Wedding Ready”

# Smiles

## are Created

# Here!

**Calling all brides, bridesmaids, grooms, groomsmen... and honored wedding guests! No matter what role you play in the wedding, nothing stands out like a stunning smile!**

**W**hether you're tying the knot...or are the Mother- or Father-of-the-Bride, in the wedding, or even an invited guest...everyone wants to look their best. **We'll help you achieve your picture-perfect smile in time for the big day!**

Plenty of wedding bells will ring this year! According to an American Express survey, six million proposals were slated for Valentine's Day 2013 alone—and a total of **14 million couples are expected to get engaged by year's end.**

Once the big question is popped, the next big question should be: **Is your smile “wedding ready”?**

Do you have caps that are mismatched? Have your teeth become stained or yellowed?

Are you worried about gapped, chipped, cracked or missing teeth?

Are you self-conscious about crooked or uneven teeth? Do you feel that too much gum tissue shows when you smile?

Our state-of-the-art dental implants, whitening, bonding, crowns, veneers and other cosmetic options will help create your gorgeous smile.

**Some procedures, like enamel shaping, get immediate, dramatic results in just one appointment!**

***Plan on a Whiter, Brighter Smile!***

Now is the time to correct any smile concerns that impact your appearance, comfort, or self-esteem.

Or we can just add those finishing touches to your already beautiful smile.

For sparkling-clean teeth and a camera-ready smile, you'll want to begin planning your "Wedding Smile" several months before the wedding! If you get started now, there's no reason why you can't have the **bright and beautiful smile you've always wanted.**

Long after the wedding bells have stopped ringing, you'll have a radiant smile that will last for years! **Call to set up a treatment plan that suits your needs, your schedule and your budget!!**

***Inside...***

**A new survey shows the impact of a nice smile!**

# Singles Are Most Attracted to Prospective Dates with "Nice Teeth"!

To all of you single folks, the top ranking deal breaker could be right under your nose!! Looks like all eyes are focused on your smile—your most prominent facial feature. Make a good first impression. **Let us give your smile a lift!**

We previously highlighted some exciting ways to enhance the smiles of those who are getting married or participating in the upcoming celebration.

At the same time, we don't want to leave out the estimated 100 million unmarried adults age 21 and older, who might be seeking a relationship. That would be about one-third of the U.S. population, according to the last U.S. census!

To find out what singles judge most in a prospective date, we look to a recent national survey conducted by MarketTools Inc. Based on responses from 5,481 "unattached" adults over the age of 20, among the top 10 categories of "things most judged"—**teeth ranked number one!**

These survey results, published in *USA Today* (Feb. 5, 2013), reveal that as many as **71% of women said they judge men primarily on the condition of their teeth; 58% of men say the same about women!**

### Your Smile Tells a Story!

We can't promise you'll find the love of your life, but it's safe to say that **making a good impression starts with a great smile.**

What does your smile say about you? Right or wrong—damaged, crooked, discolored teeth or gaps between your teeth will make you look older, less vibrant, and detract from your appearance.

On the other hand, replacing missing teeth, whitening, restoring, or straightening your teeth can

create an awesome, confident smile that portrays *the real you.*

Let's face it: You may not get a second chance to make a good first impression. **Millions have benefitted from cosmetic dentistry and changed their lives for the better—why not you! ❖**

## Photorealistic Food Paintings You Can Almost Taste!

Tjalf Sparnaay is a contemporary Dutch artist whose culinary canvasses are so convincingly realistic, they can make your stomach growl!

Sparnaay turns foods into photographic-like works of art that you can almost taste! He's been whipping up mouth-watering oil paintings since 1987.

Whether it's a strawberry-topped pastry dripping with chocolate, the singed edges of a fried egg, or the rogue crumbs of a ham sandwich...his spot-on depictions leave no shadow, texture, wrinkle, or crevice overlooked.

If the price tag of his paintings—which range from \$15,000 to \$55,000—doesn't exactly fit your budget, you can always visit his online gallery! Go to [www.tjalfsparnaay.nl](http://www.tjalfsparnaay.nl)

**WARNING: If you're not hungry now, you will be!**

## "Their Customer Service is Unmatched!"

By Mark Ammons

Each and every person in my dentist's office makes me feel so comfortable. Plus, I like going to a dentist that's right in my neighborhood.

**Their customer service is unmatched!** Whether it's in person or on the phone, they're always so courteous and respectful.

If they find dental problems, no one is judgmental. They're just happy I'm there taking care of what needs to be done!

**They take the time to listen to my concerns and explain the different ways to address my dental issues.**

With such positive dental experiences, I have no problem scheduling a routine check-up even if I'm not having pain or discomfort.

The staff is what makes this office such a great place to be a part of. **I would absolutely refer all my family and their friends! ❖**

# We Do It ALL Conveniently for You!

You can save your time, money and protect your health when you take care of all dental issues promptly!

**Dental problems don't go away on their own and, if left untreated, they will only get worse over time.**

**Please, if you have any of the following, contact us at once:**

- Abnormal bite
- Bad breath
- Chipped, fractured teeth
- Crooked teeth
- Decay
- Dry mouth
- Gingivitis
- Jaw pain
- Loose, shifting teeth
- Missing teeth
- Mouth sores
- Old restorations
- Toothache
- Tooth grinding (Bruxism)
- Tooth sensitivity
- Periodontitis

You may not be in pain but still have a serious problem developing. Remember, many dental health issues can be prevented. The best time to call us is *before* you have pain!
