

## **Congratulations to Dr. Schwartz!**

We are proud to announce we have been featured on the Page of Happiness for Angie's List. Every so often, a member of Angie's List lets the company know they've been absolutely wowed by an experience with a service company. When Angie's List hears about these great reviews, they give the member an opportunity to nominate the company for the Page of Happiness in their monthly magazine. Dr. Schwartz was featured in the July edition along with this testimonial from a patient pleased with his service in our office:

*Micah Valladares says Dr. Schwartz and his staff eased his wife's concern as well as her infected tooth. "They were very gentle and understanding, and the office has a warm and cozy atmosphere," he says. "My wife has been terrified of dentists since childhood, and now says she looks forward to returning to Dr. Schwartz's office."*

FEATURED IN THE  
PAGE OF

We would like to thank Micah and everyone else who gave reviews to Angie's List regarding the care you received with Dr. Schwartz. We always strive to give the best dental care while making you feel as though you are part of our family. Learning we have achieved that goal with a patient is the greatest accomplishment we could ask for. We appreciate your kind words and hope you continue to share your experiences with others so we may help many more in the future.
