

I Love My New Smile And My Wedding Pictures....

"Dr. Schwartz and his staff are the best! My teeth were really stained from regularly drinking coffee and red wine. Also, both of my lateral teeth had been missing since birth, leaving a gap on each side of my front 2 teeth. I had some bonding done 15 years ago to help close the gaps, but the work was old and needed replacement. I had been putting off treatment but with my wedding day approaching, I wanted to at least get the whitening done. My sister recommended that I go to Dr. Schwartz since she was very pleased with the whitening treatment she had received from him. He had excellent credentials and years of experience and that is definitely what I was looking for in a dentist.

I was extremely happy with the results of my Zoom! whitening treatment and so confident in the skills and professionalism of Dr. Schwartz that I decided to take it further and have the restoration of my front teeth done as well. In this treatment, Dr. Schwartz reshaped my teeth by hand with composite bonding, a process that requires special artistic ability that not many dentists have. He has such a great eye for detail that he took an extra appointment to tweak it to perfection. I am thrilled with my results, very grateful and can only say that it was worth every penny. I love my smile and my wedding pictures! I would recommend Dr. Schwartz to anyone!"

For over 30 years Dr. Sanford N. Schwartz has been improving the quality of life for his patients with replacement teeth that look, feel and function more like natural teeth. Patients are healthier and look younger, which allows them to be even more confident and enjoy smiling, laughing and talking with others.
